## ... the horse riders' world

Horses fascinate girls, especially girls aged between 6 and 14. They all dream of holidays on a farm with horses! That's why Spiegelburg offers books, accessories, fashion clothing ... for all friends of horses and ponies.

Horse topics are very much appreciated in books and audiobooks – the success goes ever beyond German borders.

But Horse Friends' success is not only the result of books and albums. In fact Spiegelburg makes numerous and varied items: clothes, key rings, purses, bags, pencil cases, just to name a few. Nice pink and brown backgrounds are associated with Spiegelburg's typical drawings. A good look is given by the delicate flowers and discreet spots. The horse illustrations always have to be very close to reality and complete the design's palette of Horse Friends.

Nowadays besides puzzles and board games also video games are available: "Puzzle Horse Friends" on Nintendo DS.
